Passenger App Features

Passengers have the option to choose from a variety of available cab/taxis.

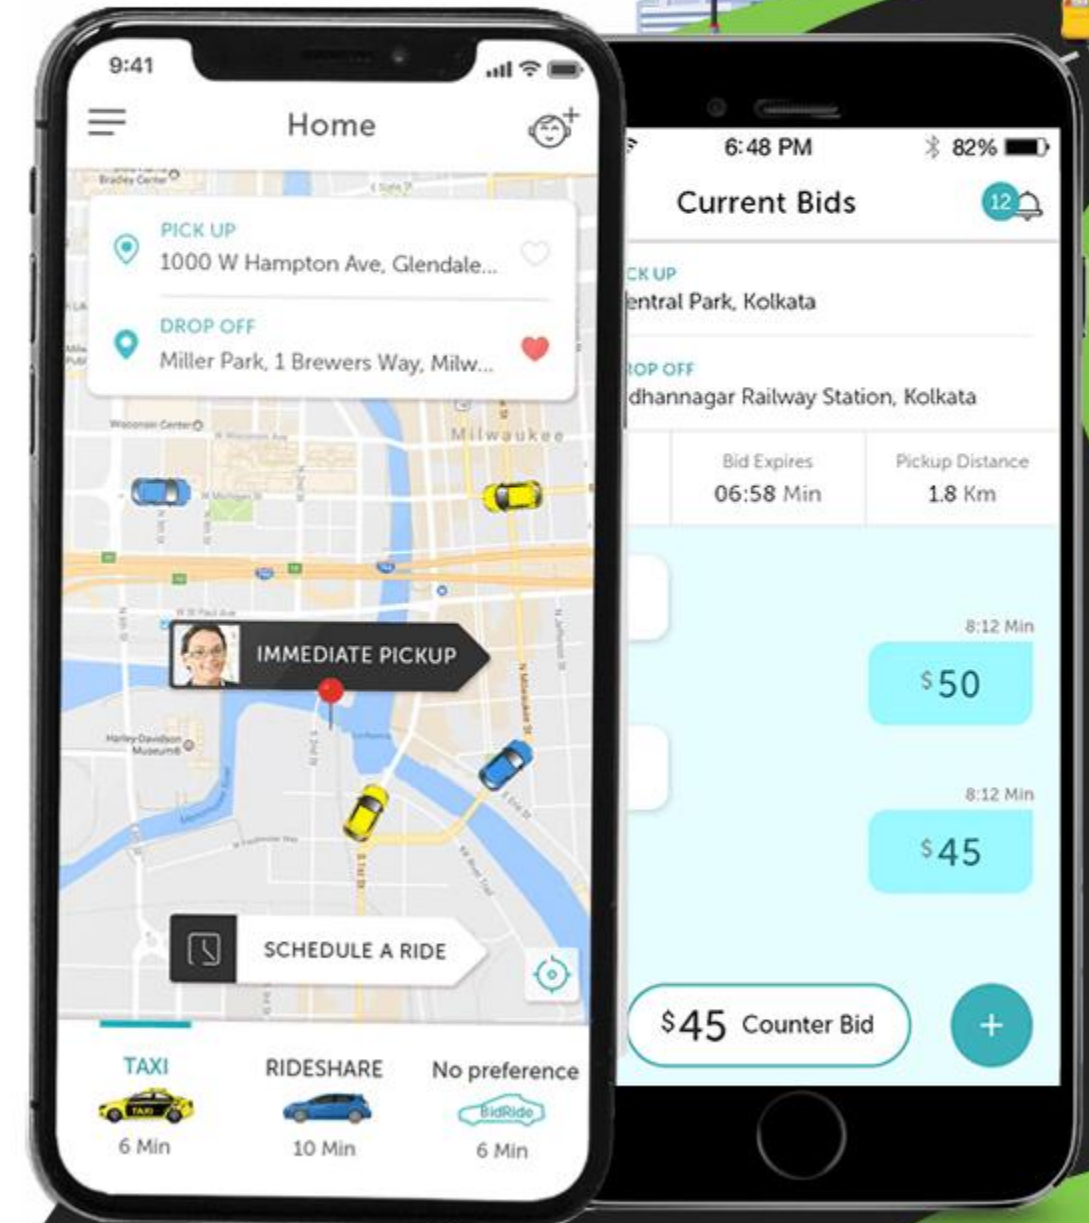

- ✓ **Choose cab/taxi Type:** Passengers can choose the type of cab/taxi they prefer.
- ✓ **Fare Calculator:** Approximate fare between the pickup location and drop-off point is calculated using fare estimation algorithm.
- ✓ **Real-time Tracking Option:** Right after booking, passengers can track their cab/taxi in real time on the app.
- ✓ **Automatic Payment:** As soon as the journey is complete, the payment is automatically made using payment gateway and invoice is emailed to the passenger.
- ✓ **Review and Rating:** A passenger can rate drivers on a scale of 1-5 stars and write a review.

Passenger App Features

Passengers have the option to choose from a variety of available cab/taxis.

- ✓ **Add Cards:** A passenger can add multiple debit/credit cards to make payments.
- ✓ **Reservation Log:** Passengers can check their reservations, logged on to the app itself.
- ✓ **cab/taxi Types & Rate Chart:** Passengers can view the different types of cab/taxis along with the rate chart at the time of booking.
- ✓ **Contact:** This is an optional feature that lets passengers report an issue or incident which they have faced regarding the trip or the service.
- ✓ **Subscription Plans:** Passengers have the option to purchase a plan to travel cashless. The plans include a certain number of miles which are available to purchase at a discount. Currently, there are only two plans to choose from. More will be added in the upcoming versions.

Driver App Features

A great interface to boost chauffeur income at their own convenience.

Register: Drivers can register directly from the app but they can go live as registered drivers only when the admin approves their registration.

Booking: Drivers can accept/reject a booking request. The pickup point is displayed to them with the distance from their current location. The distance between the pickup and drop-off point is also displayed.

Status: Drivers can update the passengers when the drivers have -

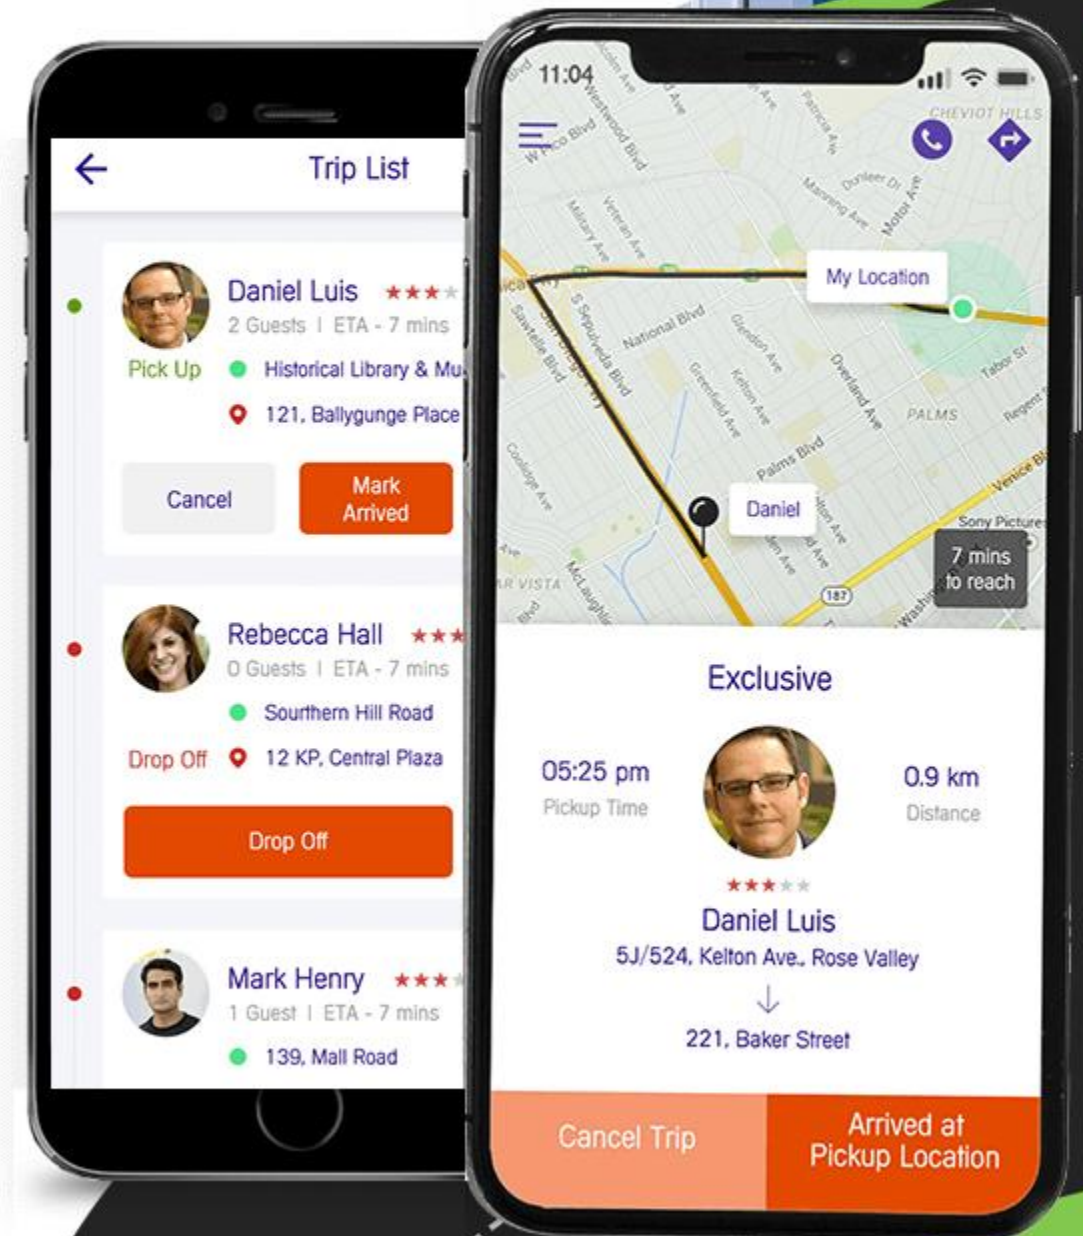

- Accepted/rejected the booking
- Arrived at the pickup location
- Trip Started
- Dropped off the passengers

Reservation Log: Drivers can track the reservation log and view the status of each, including cancelled bookings.

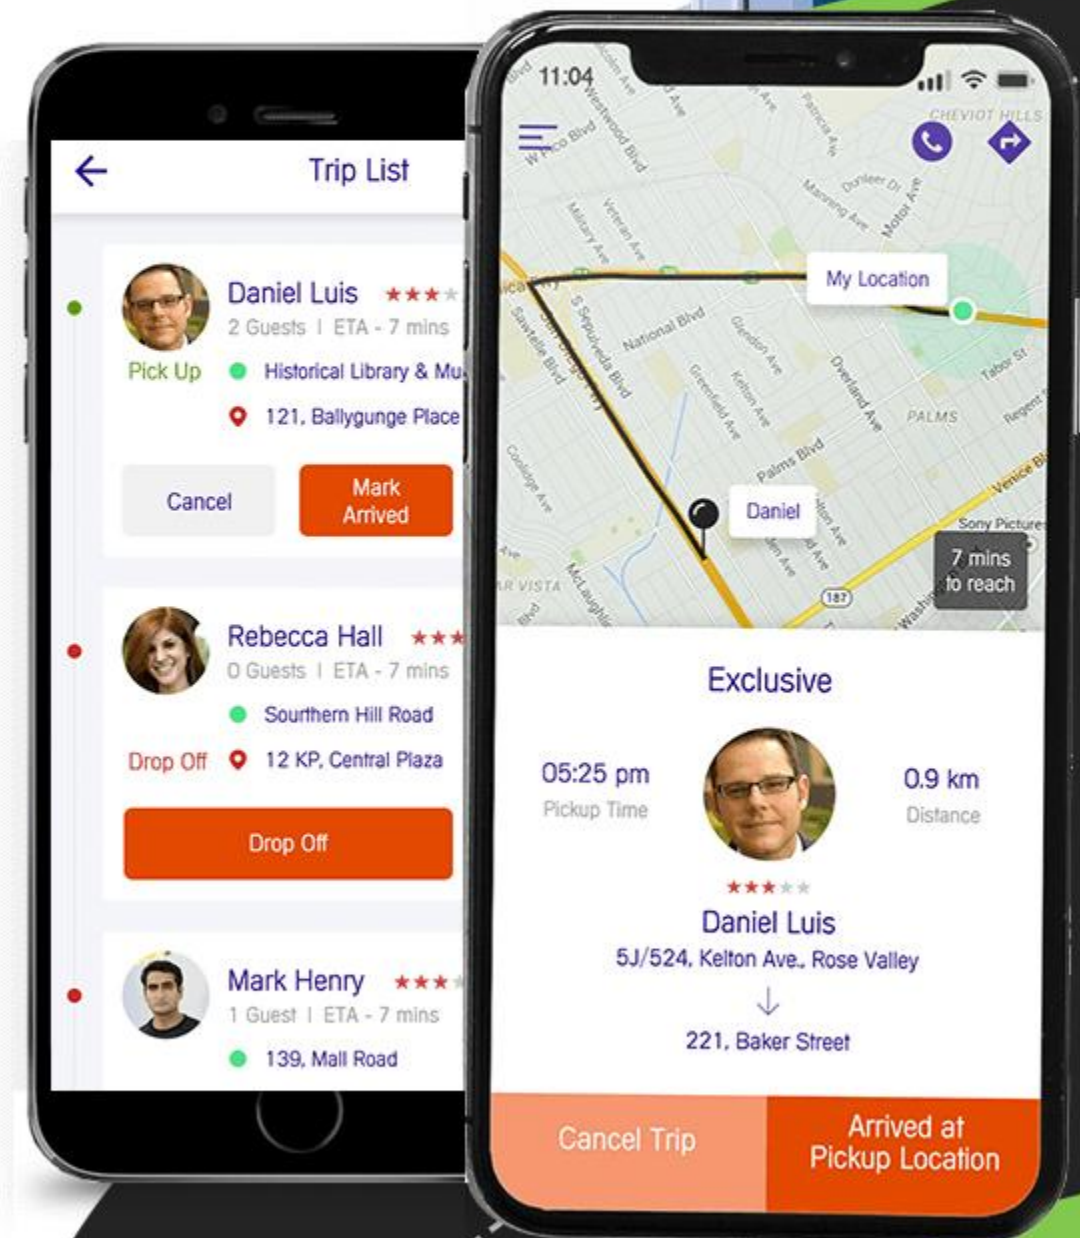

Google/Waze Navigation: Launch the navigation app within the cab/taxi Ride app to receive voice directions to the pickup location as well as destination.

Driver App Features

A great interface to boost chauffeur income at their own convenience.

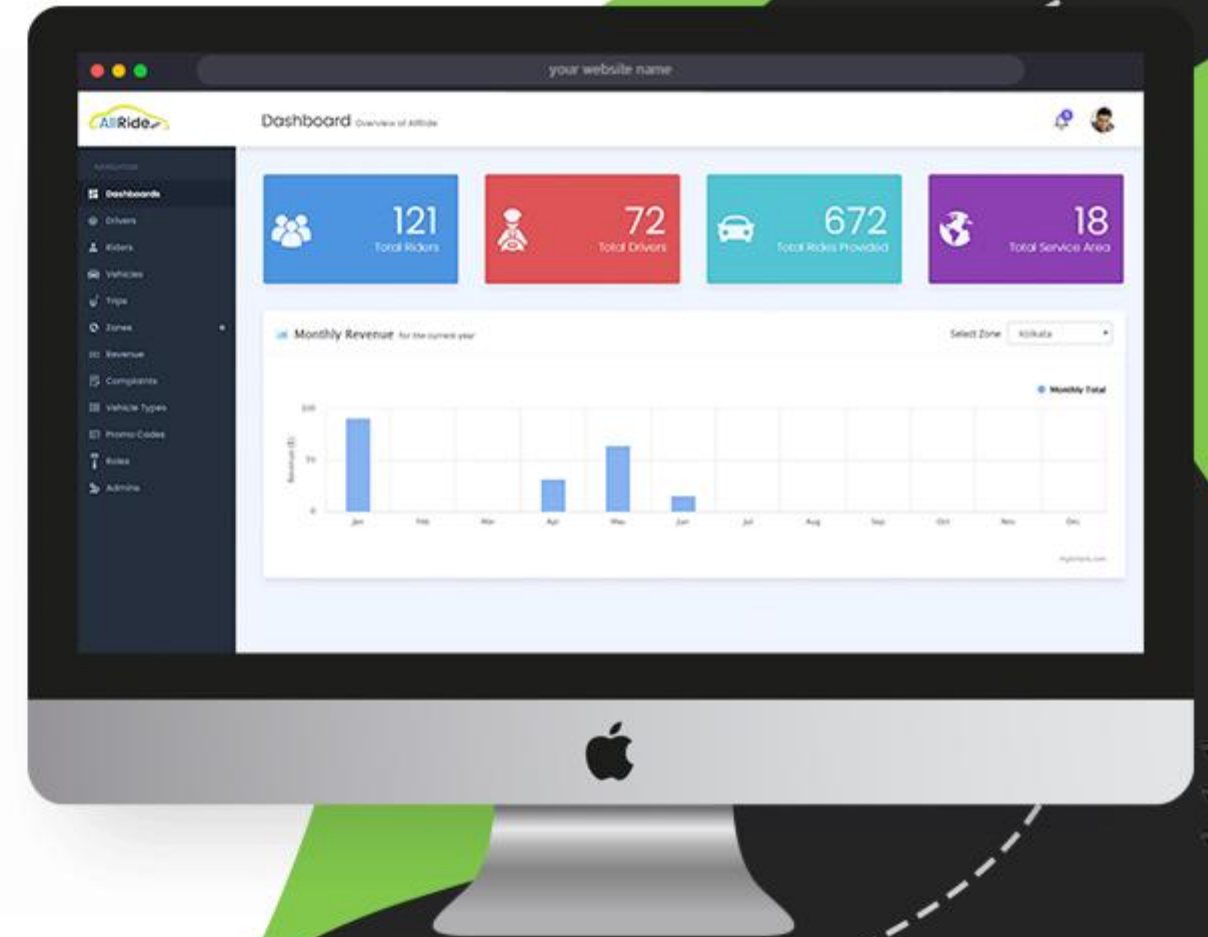

- ✔ **Multi-language Support:** Let the customers and chauffeurs use app functionalities in their own language.
- ✔ **Multi-currency Support:** The app enables the stores to accept payments in multiple currency formats and convert them to their preferred one.
- ✔ **Rate Card:** Drivers always have access to Rate Card which displays the base fare, fare per mile, base mile, service tax, and waiting charge (per min). First 10 minutes waiting is always free.
- ✔ **Payment Statements:** This feature shows the drivers their online earnings along with the commission they've earned.
- ✔ **Trip List:** This feature shows all the completed trips by the logged in driver.

Super Admin Panel Features

Manage bookings, staff, stores and business from a centralized location.

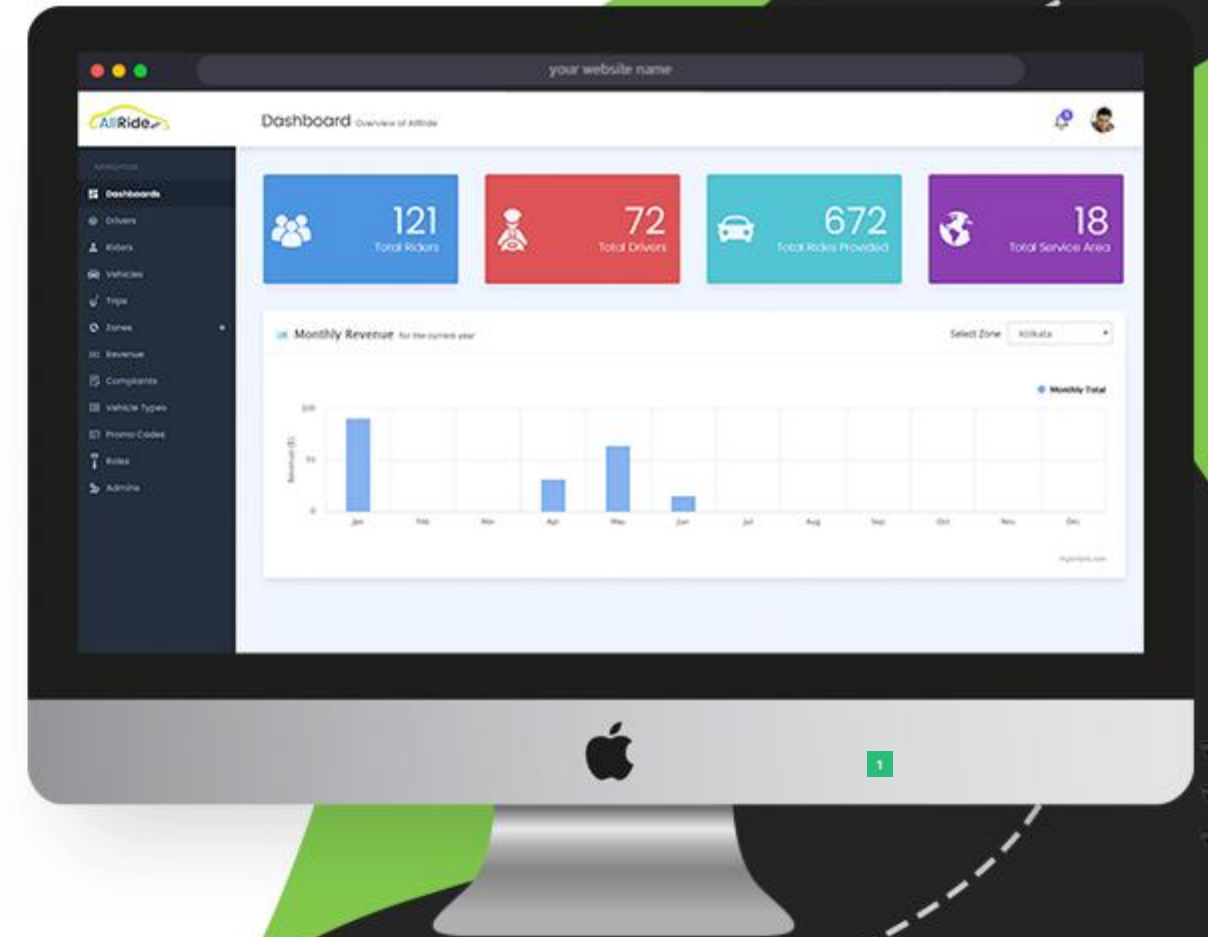

- ✓ **Multi-purpose Dashboard:** The app dashboard allows you to monitor cab/taxis, chauffeurs, users and finances with much more on a single interface.
- ✓ **Analytics:** Offers detailed information about reviews, ratings, number of bookings made per day etc.
- ✓ **Adaptive Payment:** Manages revenue shares automatically. Current payment gateway is Stripe.
- ✓ **Dynamic UI Rendering:** Get the best graphical experience in terms of both quality and navigation of the app.
- ✓ **Automated Billing and Invoicing:** Generate bills and invoices of any day or any duration automatically.

Super Admin Panel Features

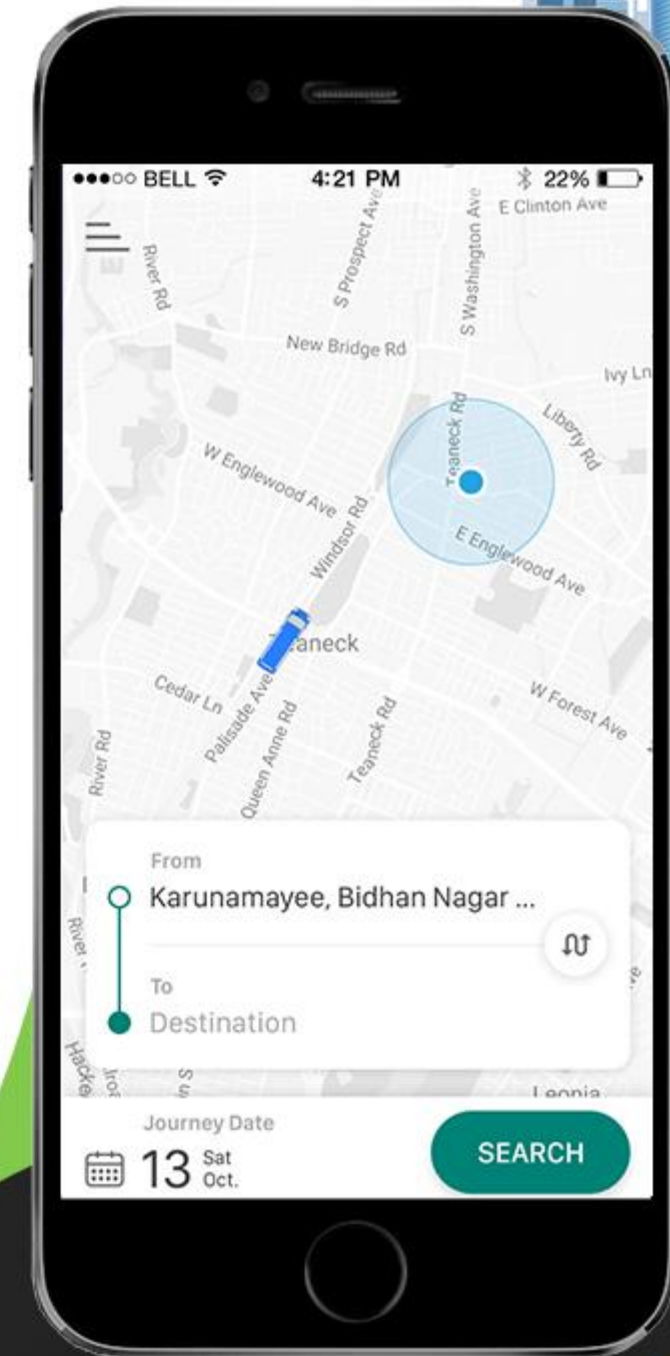

Manage bookings, staff, stores and business from a centralized location.

- ✔ **Revenue & Data Analytics:** Check the analytics section of your dashboard - it speaks all about your business!
- ✔ **Track Daily Reports & Transactions:** Never clutter your desk with bills and invoices - get all data from the app!
- ✔ **Geo-fencing Settings:** Get notified whenever your cab/taxi goes out of your permitted region of operation.
- ✔ **Coupon & Promotions Management:** Let customers know about your coupons and offers by immediate push notifications.
- ✔ **Resolve & Manage Complaints:** Know what your customers are having to say - listen to them for better business.

Compatibility Matrix

- ✔ Compatible with iOS version 11.0 upto version 11.2.x
- ✔ Compatible with Android (Lollipop & above)
- ✔ Own 100% of the licensed source code
- ✔ Attractive Passenger & Chauffeur Interface created by our award-winning team of designers.
